To ensure the health and safety of our campus, immunizations against communicable diseases is extremely important. Vaccination against Measles, Mumps, Rubella (MMR), and Meningococcal / Meningitis is required, as well as negative Tuberculosis. This is a requirement for all on-campus students entering UWA. Both the vaccination form and negative Tuberculosis test results must be completed in English and this form is the preferred document for proof of immunizations. ***DO NOT SEND STUDENT'S "BLUE CARD" AS PROOF.**

VACCINATIONS – The University requires all on-campus students born after 1956 to have had 2 doses of measles (rubeola) vaccine. One dose must have been a **Measles, Mumps, and Rubella** (MMR) vaccine. A copy of a lab report showing proof of immunity from measles (rubeola), mumps, and rubella can be submitted in lieu of the vaccine.

A **Meningitis** (A, C, Y, W-135) vaccination within the past five (5) years is required for all on-campus students.

A negative **Tuberculosis Test** is required of all on-campus students. Students who are found to have a positive test will not be permitted to attend classes until follow-up testing can be completed and it is determined there is no active Tuberculosis disease.

Please note: All students must submit completed Immunization / Tuberculosis forms and supporting documentation when applying. If a student has not fulfilled the requirements, this could hinder their acceptance. Students will not be allowed to start classes without the appropriate documentation on file. Individual Colleges, e.g. Division of Nursing, may have additional immunization requirements. These are general guidelines to be interpreted by the staff and subject to change based on the medical needs of the University.
