

# UWA Finance Major Student Learning Outcomes

**Students completing the requirements for a Finance Major degree in the College of Business will be able to:**

Identify risk and return tradeoffs and time value of money as fundamental concepts in finance.

Distinguish stock, bond, and other financial assets and explain asset pricing theories.

Analyze the roles of financial intermediaries and illustrate the systems of capital markets.

Explain short- and long-term corporate finance decisions, project evaluations, and capital budgeting.

Utilize financial calculator, spreadsheets, financial database, and stock simulations to practice managerial and investment decisions in financial markets.

Deliver financial information by communicating with financial accounting and financial statement analysis.
